

Winnipegger's Top Priorities

Winnipeg has an important role in reducing poverty. Housing, urban planning, policing, and recreation are all municipal responsibilities that have impacts on the lives of low income residents. As a result, many residents face social exclusion and racism. Make Poverty History Manitoba is working toward raising awareness and advocating for public policy change. To achieve this information and input from this survey needs to be collected from you. Make Poverty History Manitoba then will be able to develop a comprehensive poverty reduction plan to present to the City of Winnipeg. What are some of your top priorities?
